

04 Historical Look

Napoleon Bonaparte is a man of many parts

Since 1956, the Bisazza name has been synonymous with luxury design and the crafting of the world's finest glass mosaics. A tradition that continues with the unveiling of the Mosaic Napoleon.

The glory and artistic grandeur of the Venetian mosaic tradition inspired the designers, craftsmen and artists based in Vicenza, Italy to bring to life historical images using traditional Venetian mosaic techniques, which they combined with the refinement and

advances of the latest digital technologies. Cal Dal Bianco, Bisazza design director led a team who painstakingly set thousands of specially-colored *tesserae* mosaic pieces in order to produce a wall mosaic of Antonio Canova's beautiful portrayal of Napoleon Bonaparte.

Created exclusively for 20ltd.com the mosaic is limited to 20 editions.

20ltd.com focuses on exclusive pieces and restricts itself to very limited editions, often smaller than than designer may have imagined.
